## FRANK SCRIBNER DISAPPEARS

This morning when the Frank Scribner murder case was called, the defendant did not put in his appearance, and it was afterward learned that he had not been seen for two weeks. The court ordered the \$5,000 bond forfeited, and an alias warrant issued for him.

Scribner was under indictment for being accessory to the murder of his wife near Stonewall nearly three years ago. An assassin fired on her through the window, and shortly afterwards her husband and his brothers were indicted for the killing.

## BURGLARS AT ROFF

ROB DOWDY STORE AND ATTEMPT TO ENTER THAT OF PANNELL BROS.

Sunday night burglars broke into the stores of Robert Dowdy and Pannell Bros. of Roff.

At the first named they secured \$10 in cash and jewelry to the amount of \$100 or more.

At the Pannell store they broke the windows both in front and in the rear of the building. One of the proprietors was sleeping in the second story, and hastened down the back way. He saw a man trying to crawl in through the window and took a few shots at him, but he made his escape. Nothing had been molested in the store.

The burglars were trailed for some distance down the railroad track, but have not been captured.

Mr. Dowdy seems particularly unfortunate, this being the third time his store has been burglarized. Only three or four months ago a thief slipped in and made away with \$86.

## COURT TAKES UP CRIMINAL DOCKET

The criminal docket of the district court was taken up by the district court today and the following case disposed of:

J. C. Jones, disposing of mortgaged property, dismissed.

Frank Scribner, murder, bond forfeited.

F. C. Turner, perjury, bond forfeited. (Turner was under indictment in connection with his testimony in the Mack Lee case.)

Doe Black, murder, dismissed for want of evidence necessary to convict.

Luke Jenkins, perjury, dismissed.

Oscar Sims, rape, continued.

Calvin Mitchell, adultery, dismissed.

Robert Lowe, stealing domestic animal, dismissed.

Tillman Rickard, assault with intent to kill, plead guilty to assault and fined \$25 and costs.

Walter and Oscar Gouge, theft, dismissed.

J. W. Wilson, burglary, on trial.

The last named case grew out of the burglarizing of the Bruner store on West 12th street a few weeks ago.

## CHAMP CLARK CLUB TONIGHT

The Champ Clark Club will hold a meeting this evening in the district court room at 7:30 sharp. At this meeting the committees appointed by the temporary organization will report and the organization will be perfected by electing permanent officers and appointing committees to serve during the life of the organization.

## LITTLE INTEREST IN SCHOOL BOND ELECTION

The election on the proposition to issue \$4,500 in bonds for the completion and improvement of the public school buildings has made rather slow progress today, most voters apparently forgetting about the election entirely.

At 3 o'clock 30 votes had been polled in the first ward, 15 in the second, 25 in the third and 16 in the fourth, a total of 86. It is not probable that over 125 will be polled by the time the polls close.

The postmaster at Oklahoma City is constantly receiving letters from women of various ages in the eastern section of the United States inquiring about the chance of capturing a big hearted western husband. Our advice to them is to come on out to Oklahoma and give the boys a chance to see them. You see, girls, it is this way: Oklahomans have been stung so often by outside promoters who offered rare bargains, sight unseen, that they are a trifle leary. We are sure everything will turn out lovely if you will only show your sweet faces out here, for bachelors are indeed numerous, but a trifle timid.

STOP!

Don't be satisfied with anything but the best, and do not allow substitution. We believe that substitution is no less than robbery in a mild form and would rather not fill a prescription than to fill it with cheap drugs. Come in and let a registered pharmacist fill your prescriptions.

## GOV. CRUCE GOT THE TURKEY

A. L. Kennedy returned this morning from the Kiamichis, where he and numerous others from Pontotoc county have been in pursuit of big game. Up to the time he left they had failed to kill a deer, but are still hoping that luck will be with them.

Dr. Ligon claims to be the champion hunter of the bunch. A day or two ago he grabbed his gun, saying that he was going after turkeys, and sure enough, in about thirty minutes returned with a fine bird, which he had called within range. The fowl was dressed and dextrated to Gov. Cruce.

## Beauty as a Privilege

Shakespeare said that beauty is but skin deep.

Of course William knew better.

But the fact remains that both beauty of body and mind manifest themselves through the skin.

Health reveals itself in the complexion. That semi-transparent quality of skin which tells of the ruddy flow of life is within the reach of every woman.

She whose face is a blotch of Gamboge, dashed with burnt umber, will be wooed and wed by Nobody.

The moral is plain: Use Rexall Disappearing Cream, Rexall Liquid Green Soap and Rexall Cream of Almonds.

Any erroneous reflection on the character, standing or reputation of any person, firm or corporation which may appear in the columns of The News will be gladly corrected upon its being brought to the attention of the management.

Obituaries and Resolutions of Respect of less than 100 words will be published free. For all matter in excess of 100 words a charge of one cent per word will be made. Count your words and remit with manuscript.

As a rule a pin-head is a fellow who does not fall right in with and endorse the other fellow's views and give the proper amount of applause to his jokes and witticisms.

Some very conscientious people condemn the philanthropies of Carnegie, Rockefeller and others on the ground that their money is of tainted origin. Well, the most beautiful and pure white lily that floats on the bosom of the pond has its roots in the slimy ooze of the bottom, yet none spurns the flower because of that.

It is said that the trans-continental railroads are preparing to fight the Panama canal when it is opened for traffic. That will mean cheaper freight rates across the continent, and then will come another fight from interior towns to get a share of the benefits. Perhaps the fight will be one from which all will reap advantages.

The News does not think the gloomy view a few people take of the possibility of empty store buildings in Ada when the present houses are completed is at all well grounded. The fact is that if the owners of these and other buildings see a prospect of their being vacant, they will hustle harder than ever to get new enterprises at Ada with good payrolls. When this is accomplished there will be plenty of occupants for all. As a matter of fact, Ada has already lost one good mercantile house because of the lack of suitable buildings.

## West Virginia for Clark.

Washington, D. C., Post.

It is a matter of some astonishment to the political friends of other candidates how strong Champ Clark is growing in West Virginia," said Representative John M. Hamilton, of Grantsville, W. Va., at the Raleigh. "I was surprised when I visited several sections of the state, at the growth of the Clark sentiment. The speaker has apparently won the political leaders of West Virginia, and I venture to say that, in the next national convention, West Virginia will cast a solid vote for the nomination of Champ Clark as candidate for president. Of course, other candidates have friends there, but the speaker appears to be the choice, not only of politicians, but of the rank and file of the people."

## Fire Prevention Day Set.

Oklahoma City, Nov. 18.—In a proclamation issued by Governor Cruce Thursday evening, Dec. 15 is named as Fire Prevention day, to be observed over the state. Appropriate exercises will be held in the schools of the state, and the subject of fire prevention generally discussed.

## PONTOTOC COUNTY ABSTRACT CO.

Of Ada, Oklahoma, Incorporated.

A WARRANTY DEED IS A SNARE; A DELUSION! It often conveys absolutely a bad title. Your lawyer will tell you so. It is not a present help in time of trouble.

REASON: Should your title be unmarketable and you want to perfect it by hunting up old deeds, procuring releases; court decrees—every step will be at your expense—even though you find it impossible to sell the land or obtain a loan without taking such step.

ADVERSE CLAIMS: An adverse claim is asserted; suit is brought against you, finally you are ousted from the premises.

RESULT: You go on your ovesterto MAKE GOOD his WARRANTY if you can find him.

JUDGMENT: The law will give you only a money judgment. COLLECT IT IF YOU CAN. No lawyer's fees—nothing for entranced value of land—merely what you paid him and interest—about 6 per cent.

INDEED! Warranty deed sows the seed you reap two law suits for your money and brawn and the land is lost at last.

LAW SUIT: Placing your confidence in the man, upon his WARRANTY DEED is simply bidding for a law suit.

REMEDY: An abstract of title shows you exactly "WHERE YOU ARE AT." What you have for a title. We can protect you and help you.

## State Has 37 Demonstration Farms.

Guthrie, Okla., Nov. 19.—Under the provision of a regulation of the state board of agriculture, to establish forty-acre demonstration farms in those counties that have no district or state schools, the number of such farms established to date has reached thirty-seven.

These farms are located at the following places: Westville, Atoka, Durant, Coalgate, Aandarko, Okarche, Tahlequah, Norman, Sapulpa, Arapahoe, Grove, Chiskasha, Hardin, Mangum, Holts, Stigler, Holdenville, Olu-stee, Ryan, Kingfisher, Okemah, Wheatland, Pawhuska, Pawnee, Wagoner, Dewey, Cordell, Alva and Woodward.

The state board of agriculture has supervision of the work on these farms, the owner following implicitly the directions of the experts and receiving reimbursement from the board in case of loss accruing from mistake of methods. This system of county demonstration farms is the means chosen by the board to diffuse generally among the farmers of the state a knowledge of the best methods of cultivating crops grown in their immediate environment.

Thousands of farmers do not get a chance to inspect state farms and this method projects the work accomplished at these institutions over the state generally. Every farmer in the state is brought into active contact with the best methods prevailing in his special line of endeavor, and the result is that a class of farmers is now being trained up in Oklahoma that will accomplish wonders in the future.

The work is proving so helpful and popular over the state that many counties are offering to equip additional demonstration farms and reimburse from individual county funds any losses that may accrue from mistakes in cultivation methods.

## OKLAHOMA'S LONGEST BRIDGE.

What is the longest wagon bridge in Oklahoma is the one across the Canadian river connecting Purcell and Lexington. It is somewhere between one-half and one mile in length, built of iron and floored with thick oak timbers. To Dorset Carter belongs most of the credit of the enterprise. Work has been in progress for some time past, and as the river has been low, little trouble has been experienced. The bridge is nearing completion, and in less than a month traffic will open across it. Although it is a toll bridge, it will be worth a great deal to Purcell and quite a convenience to the farmers across the river.

## MAY RETURN GENERAL REYES TO MEXICO.

Washington, Nov. 20.—The arrest of Gen. Bernardo Reyes at San Antonio on a Federal grand jury indictment, charging him and his lieutenants with conspiracy to violate the neutrality laws of the United States, is regarded here as the first step in the program of the State Department to insist on the deportation of Gen. Reyes and his aides as undesirable citizens.

There have been arrests and indictments in the past for violations of our neutrality laws, but these actions were taken after the expeditions had been conducted against the friendly

government, so that in the Reyes arrests the administration makes a departure. It has clearly for its purpose the prevention of damage to Mexico rather than punishment after the damage has been done.

When the State department first became convinced that Gen. Reyes was actually going to attempt to use Texas for the base of another Mexican revolution, the intimation was conveyed to Reyes, according to reliable information here, the self-exiled Mexican General had better move away from the Mexican frontier, as Secretary Knox intended to have him deported as an undesirable alien upon the first overt act upon his part.

## Weekly Weather Forecast.

Washington, Nov. 19.—The coming week will be one of generally fair weather and seasonable temperature, according to the forecast for the week issued tonight by the Weather Bureau.

"Rains will continue," says the bulletin, "in the North Pacific states during the next few days and snow flurries are probable at intervals on the great lakes. The next disturbance of importance to cross the country will appear in the Northwest Monday or Tuesday and move thence along the border to the St. Lawrence Valley, reaching the latter district

about Friday. This disturbance will be attended by local snows in the Northern States and be followed by a change to colder weather over the northern half of the country. This cold change will appear in the northwestern state about the middle of the week."

## Unusual Merit

In something you have to offer the public is a thing to be greatly desired.

In placing on sale the limited number of lots in FORD ADDITION we feel that property of UNUSUAL MERIT if offered the public, at prices that insure a profit.

## THIS PROPERTY

Does not depend upon the future growth of Ada for its value, but has it now, and is offered at prices 50 per cent less than what the 36 pairs of lots will be worth the minute they are owned by that many individuals.

## No Other Addition

has ever been added to Ada that offered such positive values and such positive profits and probably none ever will. YOU CAN APPLY the most crucial test by which property values are determined and this property will test 100 per cent by any rule applied.

## FIRST TEST

Is there a present need and demand for the improvement of this addition? I need not say yes, for you will have answered yes before you finished the question. There is a present demand for desirable close in property of moderate cost that this addition will supply. Already enough people, not home owners, have asked for prices when ready to sell to absorb every lot.

## SECOND TEST--Location

No more convenient location in Ada, 3 blocks from Main and Broadway, 3 blocks from State Normal. This is a desirable location for large homes, affording extra rooms for rent—Normal people and business men down-town—it's handy for either.

## THIRD TEST--Neighborhood

The neighborhood on the north is made up of leading business and professional men whose families move in the best social circles. Contracts and deeds to lots in this addition contain building restrictions which will prevent an undesirable class of improvements.

## FOURTH TEST--Modern Conveniences

Sidewalks into the addition, paved streets to the addition, graded streets, water, lights and sewerage along the north tier of blocks and can be extended when needed. Two American White Elm shade trees in front on every lot on 12th and 13th streets and on each of Hope avenue. Beautifully situated and well drained, no flat muddy streets or lots. ## Resolutions of Respect.

Whereas, The Angel of Death has visited our Grove and taken from us a beloved Sovereign, Mrs. Nancy L. Tipton;

Whereas, We remember the loving service, the friendly counsel and cheering smiles of our Sovereign who passed beyond; and,

Whereas, We do mourn deeply the loss from our fraternal circle of these, our Sovereign's many virtues, while we believe that our Father, who has seen fit to bereave us, doeth all things well;

Resolved, That we, members of the Woodman Circle No. 42, Ada, Okla., do hereby tender the family of our deceased sister our sincere sympathy in this, our common loss; and,

Resolved, That in token of our sorrow and sympathy our charter be draped in mourning for a period of thirty days; and,

Resolved, That these resolutions be spread upon the record of this Grove and a copy sent to the bereaved family.

## MASS MEETING OF INDIAN CITIZENS AT CHICKASHA

Chickasha, Okla., Nov. 18.—Representatives of the Chickasaw and Choctaw Indians met here in mass meeting today and passed resolutions asking for the immediate winding up of all tribal affairs. Resolutions were adopted embodying much the same issues that were passed at the mass meeting of Indian citizens at McAlester Nov. 15, including the sale of segregated coal lands; the sale of unallotted lands; the discontinuance of the tribal schools at the close of the present term; the biannual payment of royalties from coal and asphalt lands, the sale of public buildings, coal and asphalt deposits sold at public auction by congress, and the abolishment of tribal government. Scott Ferris, who was in attendance, declared himself in favor of Champ Clark for president. Ferris promised his aid in adjusting the Indian tribal affairs.

## Beattie Still Retains His Nerve.

Richmond, Va., Nov. 20.—The gloom of impending death has had no apparent effect on Henry Clay Beattie Jr., who with less than a week to live, is today reading light literature and smoking cigarettes in the death house of the state prison, unmoved by the fact that he is to be electrocuted next Friday between 6 a. m. and 6 p. m. for the murder of his wife.

Numerous letters have come to the executive office protesting against the refusal of the governor to grant a respite to the convicted wife slayer.

As the final step toward the exodus of the Beattie family, Henry C. Beattie Sr. has disposed of the major part of his business interests in Manchester, or South Richmond, where the Beatties live.

The elder Beattie has for several years owned and managed the largest department store in South Richmond, as well as occupied the most pretentious residence in that section of this city. Nearly a month ago, it was learned today, he took steps to terminate his business connections here, at least as far as his active participation is concerned, and it is rumored that the Beattie family is preparing to leave the state following the execution and burial of Henry Clay Beattie Jr.

Mrs. Barbara Campbell returned yesterday from Los Angeles, Calif., and will make her home with her son-in-law and daughter, W. T. Mercer and wife.

### MONKEY COTTON

#### PICKERS IN OKLAHOMA.

One often hears some startling news about his home when he goes abroad, as is evidenced by the following story that is going the rounds of the California press. The story, is told by one L. C. Morton, who spent some time in Oklahoma, and will probably be believed by some of those westerners. Says the Narrator: "Down near Muskogee, Oklahoma, there is a ranch where monkeys are made use of as cotton pickers. A rancher down there sent to South America for a monkey, which became a family pet. The rancher was a cotton grower and his children worked in the cotton field during the harvest. The monkey followed the children about their work, saw them pick cotton and soon entered into the work with dexterity itself. The rancher soon discovered that the monkey was a valuable helper, and proposes to solve the labor question by starting a monkey breeding farm. One of his principal efforts will be directed to prevent the monkeys from learning to organize strikes, and if he has success in doing that, the cotton growers of the south will soon be able to again enthrone King Cotton, who was deposed by the liberation of the negroes of the southland."

#### Egypt Items.

Here comes Egypt again after a week's delay.

Singing was well attended Sunday evening.

Mr. Clint Palmer is baling hay the last day or two. He is going high. He abled 171 bales Saturday and didn't go to town.

Mr. Albinus Robertson has been absent from Egypt the past few Sundays; it is said he is taking the date with a lady of Union Hill.

The Union Hill guys were seen at Egypt again Sunday evening. Wonder why they can't stay away. Hope they had a nice time any way.

The school ma'am Miss Glennie Griffith come and began her school Monday, the 13th of November. We wish Miss Glennie success while she teaches her school.

We hope to see Mr. Albinus Robertson at Egypt again soon.

Mr. Vaden and family were shopping in Ada Saturday.

Mr. Henry Maxwell was seen Saturday evening after the norther blew up in his shirt sleeves. Guess he had a pleasant time or hope so any way.

Mr. C. M. Palmer was quite ill Saturday but is better at this writing.

Misses Bertha and Clara Agee were the guests of their aunt Mrs. Mollie Ragland Sunday.

Mrs. Eliza Smith has been very ill the past week but is reported better this writing.

Mr. Bert Anderson was at Egypt Sunday after a long delay.

Miss Pinkie Fulton was absent from Egypt Sunday. Wonder why.

Misses Glennie Griffith and Ora Vaden were the guests of Mrs. Rotie Nail and Maude South Sunday.

Mr. Lynn was seen at Egypt Sunday morning. Wonder what is going to happen.

Mr. Will Martin was at Egypt Sunday after moving Mr. Jno. Martin to Olney, O. K. He has been absent a month.

Miss Annie Harris was the guest of Mrs. Ida Martin Sunday.

MR. SUGARFOOT.

#### Lanham Happenings.

This fine weather is appreciated by all the farmers who are busily engaged in picking cotton.

Our school has been deferred one week on the account of cotton picking and will begin Nov. 13th. We have a nice modern school building and an ideal location. The board will employ two teachers part of the term.

J. M. Hume from Norman visited his son, A. B. Hume last week.

Joe Staats made a flying trip to Ada Tuesday.

Sunday school at Center when the sun shines.

Mrs. Scott Lanham and daughters are visiting relatives and friends at Milburn and Tishomingo this week.

J. H. Griffith made a business trip to Ada Monday and returned Tuesday.

Several young folks enjoyed a pleasant evening at the hospitable home of Mr. and Mrs. J. D. Little Thursday night. The music and singing was enjoyed by all.

Glennie Griffith left Saturday for Egypt where she will begin a term of school Monday.

The Literary Society which meets at Center every Friday night is well worth attending. The program is always interesting and a lively little paper. The gold seekers tribune offers much amusement. The subjects for debate are instructive and are full of interest. Center has several good debaters. Perhaps some fine orators and brilliant lawyers may be heard from in that little burg some time in the future.

Guy Griffith made a flying trip to Egypt Saturday.

Bro. Howell from Stratford will

preach here Saturday night and Sunday.

Several of the Lanham boys are great possum hunters. Their hunting expeditions are planned with care and sagacity and they have nearly frightened every opossum and other varmints out of this part of the country. Some of them are getting to be pretty good actors as they get quite a lot of practice in falling over fences while running at break neck speed and falling out of trees once and occasionally.

#### SHADE TREES.

Now is the time to plant shade trees. I am prepared to furnish and set out all kinds of trees. All trees that die replaced free.

CHARLEY RAY.

#### Notice to Sewer Contractors.

#### Franks Locals.

It was sure cold here Saturday night and Sunday.

M. C. Hooks went to Ada Saturday. J. C. Vanhook went to Ada Sunday to meet his mother from Indiana, who came to spend the winter here with her son.

Elder J. L. Norman lectured here Saturday evening, Sunday and Sunday evening.

Dr. Akers and wife visited Mrs. Rowlett Sunday afternoon.

Roland Hicell and Tom Coats were here Saturday.

Tom Underwood is building the new school house at Onward, which he expects to have ready for school by the first of December.

Rev. Mitchell was called to Sheep Creek Sunday hence he did not fill his appointment here.

Ed Ellis of the Pleasant Hill neighborhood, attended the lecture here Saturday evening.

Dr. Akers, says that health is distressingly good here now. BOB.

Has it ever occurred to you what beautiful streets East 12th and 13th will be when the Katy builds wide, commodious concrete viaducts across their tracks and they are extended on East through the Hays farm. Must you wait until the tree of fortune drops its runty, over-ripe fruit on your head before you discover that the choice fruits of opportunity have been gathered in by keen, active people who have the courage to act now while you have waited only to be handed the over-ripe lemon. #### CRYING FOR HELP.

Lots of it in Ada but Daily Growing Less.

The kidneys cry for help.

Not an organ in the whole body so delicately constructed.

Not one so important to health.

The kidneys are the filters of the blood.

When they fail the blood becomes foul and poisonous.

There can be no health where there is poisoned blood.

Backache is one of the first indications of kidney trouble.

It is the kidneys' cry for help.

Heed it.

Doan's Kidney Pills are what is wanted.

Are just what overworked kidneys need.

They strengthen and invigorate the kidneys; help them to do their work.

Mrs. G. S. Gray, Coalgate, Okla., says: "My daughter was bothered by a kidney weakness for at least five years and she tried many remedies without obtaining any benefit. Doan's Kidney Pills, which were finally used, brought her prompt relief and since then she has not been troubled in the least."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Any erroneous reflection on the character, standing or reputation of any person, firm or corporation which may appear in the columns of The News will be gladly corrected upon its being brought to the attention of the management.

Obituaries and Resolutions of Respect of less than 100 words will be published free. For all matter in excess of 100 words a charge of one cent per word will be made. Count your words and remit with manuscript.

NOTICE TO THE PUBLIC.  
For the convenience of the public, the Evening News will hereafter be on sale at the Post-office News stand for the small sum of 2c. The same rate will prevail at the News office. This is less than the actual cost of the paper, and it is impossible to make the price any lower. The publishers would like to give it away, but every paper costs money to print, and if it is worth reading at all, the News is certainly worth the small sum asked for it.

is not only comical, but also surprising. After telling of her adventures in trying to secure an engagement as a house servant, she sits at the piano and plays it. The audience are immediately convinced that she knows how to play. When she sings her original song (not published) "Just Step Over to Ireland," the audience are delighted. When she changes the music from the song to Mrs. McGowan's reel, those in the audience who can dance feel like getting up and doing so, the air is so lively, so fresh and the time so perfect. When she jumps up from the piano, singing the reel and with ease and grace executes some of the difficult steps that are in an Irish reel, then the audience are not only surprised, but also delighted; and when she concludes by dancing off the stage, the hearty and well deserved applause which she receives from the audience is a receipt in full from them that she has made a genuine hit.

Mr. Thompson will appear at the opera house for two nights Friday and Saturday, Nov. 17 and 18. The admission is 10 and 20 cents. Reserved seat tickets are on sale at Mad-Ox drug store.

## HONEY SNAKE CLIMBS TREE

Pennsylvania State Zoologist Believes Story of Sweet-Toothed Reptile—Cases on Record.

Harrisburg, Pa.—Prof. H. A. Surface, state zoologist, is much interested in a story that reached him from Kennerdell, Venango county, to the effect that three men in cutting down a bee tree discovered in opening it that a big black snake had invaded the bees' nest and had devoured almost all the honey. The bee hole was 40 feet from the ground, and the men averred that the snake, attracted by the honey, had climbed the tree, had its feast, and when discovered by the bees they set upon him to drive him away, and literally covered the snake when found.

Professor Surface was asked if it were possible for a black snake to climb a tree to that height and if it was ever known to eat honey.

"Yes," said Professor Surface, "I can fully believe that story, for I believe that it is possible that a black snake could climb a tree. Furthermore, if there was a bees' nest in that tree the snake could get into the bee hole and eat the honey. I don't believe, however, that it would eat all the honey, for it would be cunning enough to know that by doing so it would drive the bees away. As to this particular snake being covered with bees I think they were wreaking their vengeance on it by trying to sting it to death, which is pretty difficult, for a blacksnake's hide is pretty tough. I have known of snakes that got into beehives and were stung to death.

"As to the snakes' eating honey, I have known that, too. The snake finds the unsealed honey and sips it out of the comb. There are a good many records of snakes being found in beehives; but this is the first instance of one being found hunting honey in a bee tree. We know that blacksnakes climb trees, and it is possible that this one got in the tree, and when the bees found it they turned on the intruder. I have myself seen bees turn on mice when they intruded in the hives, and sting them to death, and I have seen the remains of small snakes in beehives. Of course, the snake does not bite into the comb, but sips the honey with its tongue, and in that way cleans out the cells."

## NEVER SEES MAN OF DREAMS

Unique Philosophy of Sixteen-Year-Old Affinity—Third Person Should Never Interfere.

Cincinnati, O.—"The principal thing in life is to be happy. If a man or woman love each other no third person ought to interfere with that love. Renunciation is an absolute virtue. I had ideals a couple of years ago, but these are shattered. After all, a girl never meets the man whom she has pictured in her dreams. One cannot command affections. The heart acts in spite of all commands."

This is the near-philosophy of Helen Jenkins, the 16-year-old affinity, whose case came up the other day before the juvenile court. For two years or more she has worked as a stenographer. Her relations with William Kuhn, a married man, and the father of four children, have been platonic, according to all testimony.

"Had you and Kuhn planned to marry?" was the next question. Helen hesitated. "We had talked the question over. He told me he was not happy with his wife and that he would seek a divorce. I went to see Mrs. Kuhn. She and I met on friendly terms, and we talked it over. I felt that she was willing to give her husband a divorce if that would make him happy."

## INDIAN RENEWS OLD QUEST

Washington Rancher Will Again Start on Search for Daughter He Lost Over Six Years Ago.

Husum, Wash.—To again search for the body of his lost child in the wilds of the Cascade mountains, 25 miles northwest of here, is the intention of Johnny Cayuse, an Indian rancher living four miles northwest of Husum.

Johnny reluctantly retold the story of the sudden disappearance of his daughter, Katie, six years ago, while he with his family were camped near the cave region west of Trout lake, during the huckleberry picking season. Nearly a thousand Indians gathered in that region every year to pick berries and indulge in amusements.

It was after one of these festive occasions in August that the daughter of Johnny disappeared as if swallowed by the earth. Parties searched for weeks for the lost, but no trace of her could be found. The supposition was that the girl had been killed by some wild animal or had fallen into one of the caves. Another Indian superstition was that the girl was lured by a monster of the lake to its watery home.

## Battle Giant Sturgeon.

New York.—Hundreds of baseball enthusiasts on their way from the Polo grounds lingered for half an hour on a bridge spanning the Harlem river to watch two men in a motor boat battle with a giant sturgeon. The crowd grew as the fight continued and for twenty minutes all traffic was tied up. Henry Essig and Tom Bible, the men in the boat, sank their boat hooks into the fish and finally drew their prize to land. The fish was 5 feet 7 inches long and weighed 406 pounds. It is the largest ever caught within the city limits.

## MAIL BY AEROPLANE

Air Line Is Coming Soon, Aserts Aviator Moisant.

Alman Points Out a Novel and Valuable Field for the Flying Machines in the Near Future.

Chicago.—That aeroplanes will be carrying some of Uncle Sam's mails within a short time was the prediction made today by Alfred Moisant, head of the Moisant Aviation company, during a conversation with regard to the lessons of the Chicago air meet.

"There is not the slightest doubt in my mind," he declared, "that a share of the registered and special delivery mail will be transported over aerial route at no very distant date. With aeroplane service in the postal department, important mail which now is compelled to wait on the train schedules could be carried speedily to its destination, provided, of course, the points were not too far distant to be reached during daylight hours."

"This is only one of the possibilities for the aeroplane demonstrated by the Chicago meet, which served to teach lessons not only to the flyer and manufacturer of aeroplanes, but also to the promoter of aviation meets."

"The builder had the best opportunity ever offered of comparing the relative merits of the various types, of the direct and chain driven, of warp against alleron and many other points which could not be gained by the study of any one machine."

"And, in spite of the two very deplorable fatalities, I believe it was demonstrated that the aeroplane is not the dangerous vehicle it commonly has been considered. One of those accidents could have been averted, by the exercise of greater care."

"Mr. Badger's machine broke under a strain fifty times greater than any aeroplane should be called upon to withstand. The accident to Johnstone was due to some personal equation and not to any fault of the machine. His foot may have slipped, or some other thing may have happened, which caused him to lose control."

"We have had railroad trains for eighty years, but accidents continue. Automobile accidents are a daily occurrence, and even the drivers of horse-drawn vehicles are not immune from accidents. The aeroplane is only a little more than two years old, but it is developing fast, and within a few years it will be a safer and better means of transportation than either automobiles, trains or steamships."

## HITS WRONG TUNE FOR BEES

Policeman Stung by Whole Swarm Because of Captain's Mistake of Bagpipes—Latter Unhurt.

Minneapolis, Minn.—Cow music never was intended for bees, and Capt. George Sinclair of the North Side police station and Patrolman J. A. Larson, both expert bee trainers, proved it beyond dispute when bees swarmed from a hive on the station roof at Eighteenth avenue and Third street.

Music or any noise that will distract the attention of the queen bee is supposed to be the best agent for settling a swarm of bees. Capt. Sinclair was a piper in a company of Queen Victoria's Highlanders and so, when Larson told him the bees were swarming, he grasped his bagpipes and went to the station yard.

The old ballad, "When the Kye Come Home," was the air the captain selected. As the people rushed from their houses to hear the pipes, the bees settled as predicted by the captain, but they mistook the limb of the law for the limb of a box elder, the captain had eyed during the performance, and settled on Larson. The bees clinched their hold and the stingers didn't stop at mere garments.

Ammonia, hartshorn and other antidotes for bee stings decorate the mantle in the Larson home at 2915 Fourteenth avenue N. Capt. Sinclair was not stung by bees.

## CLIMBS SIX HUNDRED FEET

Pennsylvania Miner Risks Death in Shaft to Be on Time for Arrival of Car With Salary.

Wilkes-Barre, Pa.—Walter Tinsley, a miner at the Horton shaft at Plains, near here, climbed 600 feet up the rough siding of the shaft to the top in order to be in time to get his pay from the pay car.

He wanted to be hauled up in the cage but the signal did not work, and fearful that he would miss his pay envelope, he started the hazardous climb. Half way up the cage began working again, and he was in great peril, as there is only a small space between the cage and the wall of the shaft. Each time it passed him he pressed close against the side of the shaft and held on with all his strength to avoid being brushed off. Almost exhausted he reached the top in time to receive his pay envelope.

## Society Woman Saws Wood.

Great Barrington, Mass.—Miss Isabel Curtis, a wealthy society woman, of Boston, who is staying at the Willis inn, Stockbridge, has sawed two cords of wood in three weeks just for exercise. She chopped the wood in one of the forests near Stockbridge last winter. She says she can chop down a tree as quickly as a man. Miss Curtis frequently takes long walks, going from Lenox to Stockbridge and back in a forenoon, a twelve-mile trip.

## SCIENTIFIC REST IS NEEDED

Well-Known Medical Man Says That One Should Let His Mind Wander—Learn to Do Nothing.

Chicago.—Make an effort not to make an effort. Learn to do nothing and think of nothing.

There are few people who know how to rest, and this ignorance, according to a well-known medical man, accounts for much of the modern nerve strain and insanity.

"The average man," he said recently, "spends his day working, and when he comes home, instead of resting, he begins to work again, and work hard."

"He reads, plays cards, gardens, goes calling, is called upon, dresses and hurries off to a theater or music hall—does anything, in fact, but rest his brain and body."

"Now all these things may be done now and then beneficially, but when they are made a habit they are as fatiguing as his daily work."

"The only real rest he gets is sleeping. In other words, his brain and his body are hard at it from the time he rises in the morning until he gets into bed again at night. But the brain especially wants conscious rest."

"When the brain is working it is producing toxins just as is the case with the muscles. These toxins, or poisons, have to be cleaned out of the body by rest, and to change one's work does not do this. It only causes more toxins to be formed."

"The way to get real rest is as follows:

"Sit or lie down perfectly comfortably."

"Think about nothing; do not direct your brain; let it wander."

"Do not talk about anything that requires mental effort."

"Listen to simple conversation."

"Discuss nothing that you feel strongly about, or which worries you."

"Make no plans."

Except when a man is asleep there is a constant stream of ideas running through his mind. It is quite impossible to be awake and have an empty mind, but it is quite possible to make an effort to direct that stream. If you make no effort you will get rest. Be a mental mollusk."

"Take nothing into your mind which requires mental digestion. If your brain insists upon going on working, listen to light music, or read an easy book."

"Things to avoid are: "Anything approximating to your salary work."

"Clever" conversation.

"Things to make you think."

"Chess."

"Worry."

"Card games with other people."

"Difference of opinion."

"An author, whose work is imaginative, should, for his rest, do something logical, such as playing patience."

"An accountant, on the other hand, whose mind will run on figures, should not play patience. He should mold figures out of clay or paint or do something artistic."

## MILL HAND AS A MILLINER

London Laborer Is Marvel at Making Beautiful Creations for Women—His Proudest Moment.

London.—Two mill hand who is a millonier and blousemaker in his spare time has just come to light at Preston. His name is John Jackson, and so successful has his millinery been that he now wishes to give up weaving for it. He has many orders, coming from as far as Canada.

At his home in Hammond street, Preston, where he lives with his mother and sisters, Jackson said that his first millinery success was at a local bazar.

"My heart is in making and doing up smart hats and blouses," he said, "and I was delighted when I won a prize for hat trimming at that bazar."

"My proudest moment was when two bonnets and four hats of my own trimming were worn at the wedding of one of my sisters."

"I buy my own materials, flowers, ribbons, feathers, sprays, leaves, etc., and I can usually estimate the cost of trimming a hat to a farthing for a customer. I study milliners' windows for ideas. I just see what the latest fashions are and copy—or try to improve—them."

## SPECIAL DIET FOR PUPILS

Miss Darracott, Teacher of Ungraded School in Indianapolis, Observes Novel Experiment.

Indianapolis, Ind.—Miss Frances Darracott, a teacher in the ungraded school for backward children, a special school conducted by the Indianapolis board of school commissioners, is at the University of Pennsylvania, Philadelphia, observing an interesting experiment in child training.

The experiment is being conducted by the department of psychology of the university and consists of a class of fifteen backward children, who are being taught by three expert teachers. In addition to regular school subjects the children are receiving instruction in gymnastics, swimming, personal hygiene and water color painting, the girls also being taught sewing and domestic science.

Blood of the children was tested when the class was opened. The children are also receiving a special diet. The class is being supervised by Miss Elizabeth Farrell, Mrs. Margaret Pfeiffer and Miss Elizabeth Walsh, all of New York City.

## SWORD FISH KILLS A WHALE 50 FEET LONG

CAPTAIN TELLS OF ENCOUNTER BETWEEN SEA MAMMAL AND SHARP-NOSED MONSTER.

New York.—Captain Frazier of the steamship Bermudan in from Hamilton, Bermuda, tells of a terrific encounter between a baby whale on one side and a thrasher and swordfish on the other, when his ship was 406 miles south of Sandy Hook.

The baby whale was about fifty feet long, and would have produced 150 barrels of oil, Captain Frazier said, while the thrasher weighed about 1,000 pounds and the swordfish half that weight. His first intimation of the combat came when the water off the starboard bow began to boil and toss spray. He got his glasses and saw

Sword Fish Kills a Whale.

the monsters in the first round of their combat.

While the thrasher struck with fury with his tail, lacerating the sides of the whale the swordfish would rush in and pierce the whale's body with his sword, withdrawing it and again repeating the dose. Then the thrasher would lash out with his muscular tail again, while the whale, unable either to bite or fight back, save by butting or striking with his tail, rushed hither and thither in a frantic effort to escape.

There were six rounds of this, Captain Frazier said, in each of which the two allies held the balance of power. Gradually the fight got farther and farther from the Bermudan, until the glasses discovered the water to be covered with crimson foam.

The whale then breached, leaping into the air for his full length several times in a final effort to escape. The swordfish ran at him, piercing his body. The big animal rushed away, sprang into the air and fell back into the water, turning on his side, quite dead.

## ROCKS CRADLE TO QUIET BABY

Intelligent Newfoundland Dog Knows How to Stop Kid From Crying.

Westfield, N. J.—Mrs. Emily Schwartz, matron of the Children's Country Home, where twoscore of Newark's crippled children are staying, has a Newfoundland dog named Duke. The dog is a pet with the

children and is especially fond of the babies. When a baby's cry is heard he hurries to the cradle and gently rocks it with one of his paws. After the infant has fallen asleep Duke seeks Mrs. Schwartz and wags his tail as if to say that everything is all right.

## Quest for Beauty Kills.

San Francisco.—The treatment of "beauty doctors," warranted to remove wrinkles from the face of Mrs. Mabel Jardine, in San Francisco, caused her death. Following as it did the suicide of Miss May Gertrude Igg, who committed suicide when her face was ruined by the treatment of "beauty doctors," the state authorities may institute an investigation.

### CITY NEWS IN BRIEF

Sells Furniture.

Serves you Right, Jones Drug Co.

See B. B. Howard for all kinds of tin work. Phone 256.

Prof. A. L. Fentem returned this morning from a business trip to Oklahoma City.

16 lbs. best granulated sugar \$1.00 and 8 bars Bob White soap 25c this week only. King & Rains, 127 W. Main, Phone 308.

A Texas Ranger, the attraction billed to appear at City Hall opera house, Thursday, Nov. 23, is a western comedy of the very first order. The presenting company comes well recommended, and a first-class production of scenery, properties and accessories are carried. The play itself is a pretty love story of the plains, has a fund of good, clean comedy that will cure the worst case of "blues." Little powder is burned, and all the so-called "blood and thunder" is left out. Still the play abounds in startling situations and intensely dramatic climaxes. The cast is well abanced and will please. Prices 10c, 20c and 30c.

Rev. M. L. Sims returned from Fitzhugh this morning where he preached yesterday. Fitzhugh is a part of the circuit to which he was assigned by the last meeting of the conference.

Deputy Sheriff R. E. Duncan is nursing a very black eye, which he received Saturday night. (Happening to drop his bridle reins he bent over to pick them up. His horse jerked his head up suddenly, striking his rider a hard blow above the eye.

The Scientific Application

of lenses (glasses) to the eye receives my attention. Dr. H. H. Wynne, Oculist, Ada, Monday, Nov. 20; office, Dr. King.

Perhaps Jim Jeffries and a few others can't come back, but this delightful fall weather shows that it can temporarily at least.

Manager Ward reports that Saturday night's crowd at the Majestic theatre was something remarkable. Every performance was crowded and the most fashionable circles of Ada turned out to witness the splendid show.

For Plumbing, see Ford, Phone 57.

Among the Francis visitors in Ada today were the following: J. R. Rushing, W. A. Henson, Roy Moore, Mrs. J. H. Bean, R. L. Lewis, Miss Ruth McClure, C. S. Norman and wife and Jim Baugh.

That Shiner at the Crescent Drug Store is completed—Dr. Holly.

Editor Clark of the Francis Wigwam was in town a few hours today, looking hale and hearty. In fact, he claims that he has never failed to get three square meals any day since coming to Oklahoma.

And something worse if you get hold of bad coal. It is certainly exasperating to be imposed upon. An oath is almost justifiable under such circumstances. But a much more sensible way would be to trade with a reliable concern and then you could always depend upon getting just what you pay for. Some people, even some coal dealers, do not know the difference between coal weight and coal value. You buy Heat from us.

Remember if you get 1500 lbs. of lump coal and 500 lbs. of slack for a ton you have really only 1500 lbs. of coal as the slack is worthless to you. We would not let you have slack if you wanted it as we need it for our boilers, so be sure and get our prices before you buy.

A Distinguished Educator Visits Ada.

Dr. W. H. Bruce, president of the North Texas state normal at Denton, was in Ada this morning, the guest of Prof. C. W. Briles. He left this afternoon for a visit to the Edmond normal, but will return tomorrow and deliver an address to the normal students Wednesday morning at the chapel hour.

It has been the pleasure of the reporter to know Dr. Bruce for the past eighteen years, and on the numerous occasions when Dr. Bruce was on the program of various meetings of teachers, there was never a dry moment in his talks. He is conceded to be one of the strongest educators in Texas, and has long been recognized as one of the leaders.

### A LIBERAL OFFER

We Guarantee to Relieve Dyspepsia.  
If We Fail the Medicine Costs  
Nothing.

To unquestionably prove to the people that indigestion and dyspepsia can be permanently relieved and that Rexall Dyspepsia Tablets will bring about this result, we will furnish the medicine absolutely free if it fails to give satisfaction to any one using it.

The remarkable success of Rexall Dyspepsia Tablets is due to the high degree of scientific skill used in devising their formula as well as to the care exercised in their manufacture, whereby the well-known properties of Bismuth-Subnitrate and Pepsin have been combined with Carminatives and other agents.

Bismuth-Subnitrate and Pepsin are constantly employed and recognized by the entire medical profession as invaluable in the treatment of indigestion and dyspepsia.

The Pepsin used in Rexall Dyspepsia Tablets is carefully prepared so as to develop its greatest efficiency. Pepsin supplies to the digestive apparatus one of the most important elements of the digestive fluid. Without it the digestion and assimilation of food are impossible.

The Carminatives possess properties which aid in relieving the disturbances and pain caused by undigested food. This combination of these ingredients makes a remedy invaluable for the complete relief of indigestion and dyspepsia.

We are so certain of this that we urge you to try Rexall Dyspepsia Tablets on our own personal guarantee. Three sizes, 25 cents, 50 cents, and \$1.00. Remember, you can obtain Rexall Remedies only at our store—The Rexall Store. The Gwin & Mays Drug Company.

The People Who Put the Price Down.

### SHAWNEE MERCHANTS FIGHT MAIL ORDER GROCERY

Shawnee, Nov. 20.—The Retail Merchants' association has a new enemy to fight and at present have no weapons in which to wage a war upon the enemy. A Grocery Company of Kansas City is the one the local association will fight against.

### Interstate Law Protects.

The Merchants' Association at present cannot prevent this foreign concern coming in here and disposing of groceries, because under the interstate commerce law they have the right. However, the association will petition the city council to initiate an ordinance that will require a heavy license to be paid by outside concerns, and believe by this plan that disposing of groceries or other goods cannot be made with profit.

### No Cheaper Than Here.

A car load of groceries were brought here the past week and offered for sale, most of which were sold to consumers residing outside of the city. According to a statement of Frank Roodhouse, secretary of the Merchants Association, the groceries

were not sold a cent cheaper than those offered for sale by local dealers.

It is stated that a committee will probably appear before the city council next Tuesday evening and ask to have an ordinance passed increasing the license of outside dealers, holding that the present license does not provide Shawnee merchants with ample protection.

### Civil Service Examination—Clerk-Carrier.

An examination for clerk and carrier will be held at the postoffice in this city on Jan. 9, 1912, age limit, 18 to 45 years, on the date of the examination.

Married women will not be admitted to the examination. This prohibition, however, does not apply to women who are divorced or those who are separated from their husbands and support themselves, but they are eligible for appointment only as clerk.

Applicants must be physically sound and male applicants must be not less than 5 feet 4 inches in height without boots or shoes, and weigh not less than 125 pounds without overcoat or hat.

For application blanks and for full

information relative to the examination, qualifications, duties, salaries, vacations, promotions, etc., address immediately Earl T. Sumner, Secretary Board of Civil Service Examiners, Postoffice, Ada, Okla.

### A Father's Vengeance

would have fallen on any one who attacked the son of Peter Bondy, of South Rockwood, Mich., but he was powerless before the attack of kidney trouble. "Doctors could not help him," he wrote "so at last we gave

him Electric Bitters and he improved wonderfully from taking six bottles. It's the best kidney medicine I ever saw." Backache, tired feeling, nervousness, loss of appetite, warn of kidney trouble that may end in dropsy, diabetes or Bright's disease. Beware: take Electric Bitters and be safe. Every bottle guaranteed. 50c at the Ramsey Drug Co.
